Andy Carberry attended the Viridor meeting and noted:

- - Parking is a big issue
- - The whole plant will be up and running by the end of this year.
- - When it opens, refuse from all over Glasgow will be coming to Polmadie. This will affect: air quality and transport management and he raised concerns about these. (They will get back to us)
- - The previous commitment to Community was made by "Interserve", who are no longer contractors on the project.

The importance of diversity was noted.

AOCB

Noted that Iain MacInnes had opted to step down and his long service as a Community Councillor was recognised.

During the course of the AGM portion of the meeting, Raza raised concerns that ideas were not being heard and that we needed to change structure. All agreed that we should hold an internal meeting to air and resolve such issues asap.

[ACTION: Cheryl/Raza to agree date for management meeting]

Keith also noted he is struggling to keep up and was looking to spread responsibility for some tasks eg. social media monitoring - and also to renew pursuing a minute-taker. These were agreed to be topics we should consider at internal management meeting.
